Easy Precision Install

Bask in the glory of exquisite beauty. Alexandria Mouldings' new Raised Panel Wainscot Kit offering enhances any room and transforms it into something worthy of royalty.

Complementary Mouldings

Finish with style! The finish details are often the most important. Alexandria has precision designed two wainscot caps and a wainscot baseboard to finish off your project.

Wainscot Cap	Wainscot Cap	Wainscot Baseboard
WPK01	WPK02	00921

Don't forget that we have thousands of other profiles to choose from. Your imagination is your only limitation.

Four Species

We have carefully researched what you need. Consumers today need simple, easy elegance in a bottle. But most importantly you want choice.

Alexandria Moulding is pleased to offer 4 of the most beautiful species to accommodate most any décor.

Fits Any Wall Technology

This patented* technology allows you to stylishly fit any wall in your home!

Our special **Groove & Key** system allows you to cut our carefully crafted raised panels both horizontally and vertically. Fit any wall; anytime.

Ready to Paint or Stain

All our products use the finest quality materials and processes. Each component must pass a stringent quality control process that lets only the finest pieces through. Every piece is profile sanded during manufacturing to make installation and finishing a matter of 1, 2, and 3.

Easy Transport

Each Raised Panel Wainscot Kit is individually packaged and contains enough paneling to cover 35 inches high by 4 linear feet of wall.

Pick Up a Raised Panel Wainscot Kit and revitalize your décor.
